

How to reduce waste in Titchfield

Reduce

You'll find options further below to reuse, repair, compost and recycle in your local area, but reducing is the most important thing we can all do.

Reducing waste is very much a personal challenge. It's about having less waste in the first place.

As food waste makes up a third of the average bin and is responsible for about 10% of global greenhouse gas emissions, it's the obvious place to start.

Learn more about reducing food waste by visiting the websites at the bottom of the page via the URL or QR code.

Recycle

Much of your household waste can be recycled at home.

Go to your local borough Council's waste & recycling page to find out what can be recycled at the kerbside

https://www.fareham.gov.uk/waste_collection_and_recycling/recycling/intro.aspx

Find what you can recycle at your local Household Waste Recycling Centre at

<https://www.hants.gov.uk/wasteandrecycling/recyclingcentres/hwrcfinder>
