

9th April 2025

*My home made better is funded by the
Energy Industry Voluntary Redress Scheme.*

my home made better

Independent advice for your home

Jo Moodie- Retrofit Advice Team Lead - the Environment Centre (tEC)

Delivered by:

With support from:

Hampshire
County Council

How we can help

- **Free** and **impartial** advice to help you improve the energy efficiency of your home.
- Tailored to your unique circumstances, helping you know where to start.

“Home improvements don’t have to be done in one go. We’ve renovated our 1900s home as and when time and money have allowed over the years.” Adam, Romsey

Our service at a glance

Get in touch, and tell us about you and your home.

Including what schemes,
support and grants you may
be eligible for.

A local Retrofit Advisor will provide independent, tailored advice for your property over the phone/in-person.

Our service at a glance

You'll get an email summary of the conversation you had. The summary will include recommendations and next steps.

You can use our directory to find accredited local tradespeople.

From there, the choice is yours. You could find suppliers to quote for individual measures, find a retrofit coordinator to help you take a whole house approach, or take some time to think things through. We're here to answer your questions every step of the way.

More support

Our new website (launching in April) will hold:

- A **central hub of information** about retrofit
- Real **stories from your community** - case studies and videos
- A **directory of accredited members of the local supply chain** - installers, surveyors, Retrofit Coordinators and Assessors
- Upcoming **opportunities to learn more**: open homes, events and webinars.
